Part A: Explanatory Notes Pursuant to Malaysian Financial Reporting Standard 134 (“MFRS 134”) Interim Financial Reporting

A1. Basis of Preparation

The unaudited condensed interim financial statements for the Group and the Bank have been prepared under the historical cost convention except for the following assets and liabilities that are stated at fair values: financial assets at fair value through other comprehensive income, financial assets and liabilities at fair value through profit or loss, derivative financial instruments and investment properties.

The unaudited condensed interim financial statements have been prepared in accordance with the requirements of Chapter 9, part K of the Listing Requirements of Bursa Malaysia Securities Berhad, MFRS 134 Interim Financial Reporting and IAS 34 Interim Financial Reporting.

The unaudited condensed interim financial statements do not include all the information and disclosures required in the audited annual financial statements, and should be read in conjunction with the audited annual financial statements for the financial year ended 31 December 2024. These explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and of the Bank since the financial year ended 31 December 2024.

The unaudited condensed interim financial statements of the Group include Islamic banking and insurance business. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic securities under the Shariah principles. Insurance business refers to the underwriting of general and life insurance business, the management of general and family takaful business and investment-linked business.

The material accounting policies and methods of computation applied by the Group and the Bank are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2024 except for adoption of the following amendments to Malaysian Financial Reporting Standards (“MFRS”), which is effective for annual periods beginning on or after 1 January 2025:

- Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability*

The adoption of the above amendments to MFRS does not have any significant financial impact to the Group’s and the Bank’s financial statements as disclosed below:

Amendments to MFRS 121 *The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability*

The amendments clarify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking, as well as require the disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable.

The amendments are effective for annual reporting periods beginning on or after 1 January 2025. Earlier application is permitted, in which case, an entity is required to disclose that fact. The amendments are not expected to have a significant impact on the preparation of the Group’s and the Bank’s financial statements.

(Incorporated in Malaysia)

A2. Accounting Policies

The audited annual financial statements of the Group and of the Bank for the financial year ended 31 December 2024 were prepared in accordance with MFRS and International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act 2016 in Malaysia. The material accounting policies adopted in preparing these unaudited condensed interim financial statements are consistent with those of the audited annual financial statements for the financial year ended 31 December 2024 except for the adoption of the amendments to MFRS which are effective for annual periods beginning on or after 1 January 2025 as disclosed in Note A1.

A3. Significant Accounting Estimates and Judgements

The preparation of unaudited condensed interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of income, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Although these estimates and judgements are based on management's best knowledge of current events and actions, actual results may differ.

In preparing these unaudited condensed interim financial statements, the significant judgements made by management in applying the Group's and the Bank's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited annual financial statements for the financial year ended 31 December 2024.

A4. Auditors' Report on Preceding Audited Annual Financial Statements

The auditors' report on the audited annual financial statements for the financial year ended 31 December 2024 was not qualified.

A5. Seasonal or Cyclical Factors

The operations of the Group and of the Bank were not materially affected by any seasonal or cyclical factors during the financial half year ended 30 June 2025.

A6. Unusual Items Due to Their Nature, Size or Incidence

During the financial half year ended 30 June 2025, save as disclosed in Note A8 below, there were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group and of the Bank.

A7. Changes in Estimates

There were no material changes in estimates during the financial half year ended 30 June 2025.

[^] Included in the Bank's loans/financing to financial institutions is financing granted to Maybank Islamic Berhad ("MIB"), a subsidiary of the Bank, under a government financing scheme as part of the government support measures in response to COVID-19 pandemic for the purpose of SME lending amounting to RM1,083.0 million (31 December 2024: RM1,066.6 million), and under the Restricted Profit-Sharing Investment Account ("RPSIA") amounting to RM49,523.5 million net of expected credit losses (31 December 2024: RM47,436.0 million). The RPSIA is a contract based on the Mudharabah principle between two parties financing where the Bank acts as the investor who provides capital to MIB whereas the business venture is managed by MIB as an entrepreneur. The profit of the business venture is shared between both parties based on pre-agreed ratios. Losses, if any, are borne by the Bank.

* The credit equivalent amount and the risk-weighted amount are derived from using the credit conversion factors and risk-weights respectively as specified by Bank Negara Malaysia for regulatory capital adequacy purposes.

(i) The Group's and the Bank's derivative financial instruments are subject to market, credit and liquidity risks, as follows:

Market Risk

Market risk on derivatives is the potential loss to the value of these contracts due to changes in price of the underlying items such as equities, interest rates, foreign exchange rates, credit spreads, commodities or other indices. The notional or contractual amounts provide only the volume of transactions outstanding at the reporting date and do not represent the amount at risk. Exposure to market risk may be reduced through offsetting items from on and off-balance sheet positions.

Credit Risk

Credit risk arises from the possibility that a counterparty may be unable to meet the terms of a contract in which the Bank and certain subsidiaries have a gain position. As at 30 June 2025, the amount of credit risk in the Group, measured in terms of the cost to replace the profitable contracts, was RM18,152.3 million (31 December 2024: RM23,417.6 million). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

Liquidity Risk

Liquidity risk on derivatives is the risk that the derivative position cannot be closed out promptly. Exposure to liquidity risk is reduced through contracting derivatives where the underlying items are widely traded.

MALAYAN BANKING BERHAD
(Co. Reg. No.: 196001000142)
(Incorporated in Malaysia)

A34. Commitments and Contingencies (cont'd.)

- (ii) There have been no changes since the end of the previous financial year in respect of the following:
- (a) The types of derivative financial contracts entered into and the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
 - (b) The risk management policies in place for mitigating and controlling the risks associated with these derivative financial contracts; and
 - (c) The related accounting policies.

A35. Capital Adequacy

(a) Capital Adequacy Framework

- (i) Bank Negara Malaysia ("BNM") had on 14 June 2024 issued the updated Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components) on the computation of capital and capital adequacy ratios for Conventional banks and Islamic banks respectively. All financial institutions shall hold and maintain at all times, the following minimum capital adequacy ratios:

Common Equity Tier 1 (CET1) Capital Ratio	Tier 1 Capital Ratio	Total Capital Ratio
4.5%*	6.0%	8.0%

* In addition, BNM had introduced Capital Conservation Buffer of 2.5% of total risk-weighted assets ("RWA") as well as Countercyclical Capital Buffer ranging between 0% - 2.5% of total RWA.

- (ii) Total RWA is calculated as the sum of credit RWA, market RWA, operational RWA and large exposure risk requirements as determined in accordance with the Capital Adequacy Framework (Basel II - Risk-Weighted Assets) and Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets) both issued by BNM on 18 December 2023 for Conventional banks and Islamic banks respectively.

Any exposures which are deducted in the calculation of CET1 Capital, Tier 1 Capital and Total Capital are not subjected to any further capital charges in the computation of RWA.

(b) Compliance and application of capital adequacy ratios

The capital adequacy ratios of the Group and of the Bank are computed in accordance with BNM's Capital Adequacy Framework (Capital Components) issued on 14 June 2024 and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) issued on 18 December 2023. The total RWA are computed based on the following approaches:

- (A) Credit risk under Internal Ratings-Based Approach and Standardised Approach;
- (B) Market risk under Standardised Approach;
- (C) Operational risk under Basic Indicator Approach; and
- (D) Large exposure risk requirements.

(b) Compliance and application of capital adequacy ratios (cont'd.)

On an entity level basis, the computation of capital adequacy ratios of the subsidiaries of the Group are as follows:

- (i) For Maybank Islamic Berhad, the computation of capital adequacy ratios are based on BNM's Capital Adequacy Framework for Islamic Banks (Capital Components) issued on 14 June 2024 and Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets) issued on 18 December 2023. The total RWA are computed based on the following approaches:

- (A) Credit risk under Internal Ratings-Based Approach and Standardised Approach;
- (B) Market risk under Standardised Approach;
- (C) Operational risk under Basic Indicator Approach; and
- (D) Large exposure risk requirements.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.5%, 6.0% and 8.0% of total RWA for the financial year ending 31 December 2025 (2024: 4.5%, 6.0% and 8.0% of total RWA).

- (ii) For Maybank Investment Bank Berhad, the computation of capital adequacy ratios are based on BNM's Capital Adequacy Framework (Capital Components) issued on 14 June 2024 and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) issued on 18 December 2023. The total RWA are computed based on the following approaches:

- (A) Credit risk under Standardised Approach;
- (B) Market risk under Standardised Approach;
- (C) Operational risk under Basic Indicator Approach; and
- (D) Large exposure risk requirements.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.5%, 6.0% and 8.0% of total RWA for the financial year ending 31 December 2025 (2024: 4.5%, 6.0% and 8.0% of total RWA).

- (iii) For PT Bank Maybank Indonesia Tbk, the computation of capital adequacy ratios are in accordance with local requirements, which is based on the Basel II capital accord. The total RWA are computed based on the following approaches:

- (A) Credit risk under Standardised Approach;
- (B) Market risk under Standardised Approach; and
- (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirement for PT Bank Maybank Indonesia Tbk for the financial year ending 31 December 2025 is 9.0% up to less than 10.0% (2024: 9.0% up to less than 10.0%) of total RWA.

(b) Compliance and application of capital adequacy ratios (cont'd.)

(iv) For Maybank Singapore Limited, the computation of capital adequacy ratios are based on MAS Notice 637 dated 20 September 2023 (last revised on 25 November 2024) issued by the Monetary Authority of Singapore ("MAS"). The total RWA are computed based on the following approaches:

- (A) Credit risk under Internal Ratings-Based Approach and Standardised Approach;
- (B) Market risk under Simplified Standardised Approach;
- (C) Operational risk under Standardised Approach; and
- (D) Output Floor calculation using Standardised Approach under MAS Notice 637.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 6.5%, 8.0% and 10.0% of total RWA for the financial year ending 31 December 2025 (2024: 6.5%, 8.0% and 10.0% of total RWA).

(c) The capital adequacy ratios of the Group and of the Bank

With effect from 30 June 2013, the amount of declared dividend to be deducted in the calculation of CET1 Capital under a DRP shall be determined in accordance with BNM's Implementation Guidance on Capital Adequacy Framework (Capital Components) ("Implementation Guidance") issued on 8 May 2013 (last updated on 9 December 2020). Under the said Implementation Guidance, where a portion of the dividend may be reinvested under a DRP (the electable portion), the amount of declared dividend to be deducted in the calculation of CET1 Capital may be reduced as follows:

- (i) where an irrevocable written undertaking from shareholder has been obtained to reinvest the electable portion of the dividend; or
- (ii) where there is no irrevocable written undertaking provided, the average of the preceding 3-year take-up rates subject to the amount being not more than 50% of the total electable portion of the dividend.

In arriving the capital adequacy ratios for the financial half year ended 30 June 2025, the proposed single-tier first interim dividend has not been deducted from the calculation of CET1 Capital.

Based on the above, the capital adequacy ratios of the Group and of the Bank are as follows:

	Group		Bank	
	30 June 2025	31 December 2024	30 June 2025	31 December 2024

A37. Fair Value Measurements of Financial Instruments

Valuation principles

For disclosure purposes, the level in the hierarchy within which the instruments are classified in its entirety is based on the lowest level input that is significant to the position's fair value measurements:

(a) Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities

Refers to financial instruments which are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices which represent actual and regularly occurring market transactions in an arm's length basis. Such financial instruments include actively traded government securities, listed derivatives and cash products traded on exchange.

(b) Level 2: Valuation techniques for which all significant inputs are, or are based on, observable market data

Refers to inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices). Examples of Level 2 financial instruments include over-the-counter ("OTC") derivatives, corporate and other government bonds, illiquid equities and consumer loans and financing with homogeneous or similar features in the market.

(c) Level 3: Valuation techniques for which significant inputs are not based on observable market data

Refers to instruments where fair value is measured using significant unobservable inputs. The valuation techniques used are consistent with Level 2 but incorporates the Group's and the Bank's own assumptions and data. Examples of Level 3 instruments include corporate bonds in illiquid markets, private equity investments and loans and financing priced primarily based on internal credit assessment.

The classification in the fair value hierarchy of the Group's and the Bank's non-financial and financial assets and financial liabilities measured at fair value as at 30 June 2025 and 31 December 2024 is summarised in the table:

A37. Fair Value Measurements of Financial Instruments (cont'd.)

Valuation techniques

The valuation techniques used for the financial and non-financial assets and financial liabilities that are not determined by reference to quoted prices (Level 1) are described below:

Derivatives

The fair values of the Group's and the Bank's derivative instruments are derived using discounted cash flows analysis, option pricing and benchmarking models.

Financial assets designated upon initial recognition at fair value through profit or loss, financial investments at fair value through profit or loss and financial investments at fair value through other comprehensive income

The fair values of these financial assets/financial investments are determined by reference to prices quoted by independent data providers and independent brokers. Fair values for unquoted equity securities held for socio economic reasons (classified as Level 3) are determined based on the net tangible assets of the companies.

Loans, advances and financing at fair value through profit or loss and at fair value through other comprehensive income

The fair values are estimated based on expected future cash flows of contractual instalment payments, discounted at applicable and prevailing rates at reporting date offered for similar facilities to new borrowers with similar credit profiles.

Financial liabilities at fair value through profit or loss

The fair values of financial liabilities designated at fair value through profit or loss are derived using discounted cash flows.

Part B: Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad

B1. Performance Review

(i) Current Period-to-Date vs Previous Corresponding Period-to-Date

The Group posted profit after tax and zakat attributable to equity holders of RM5,216.9 million for the six-month financial period ended 30 June 2025, an increase of RM198.8 million or 4.0% as compared to the previous corresponding six-month financial period ended 30 June 2024.

The Group's net interest income and Islamic Banking income for the six-month financial period ended 30 June 2025 increased by RM102.9 million or 1.0% to RM10,669.5 million as compared to the previous corresponding six-month financial period ended 30 June 2024.

The Group's insurance/takaful service result increased by RM216.1 million or 33.2% to RM865.9 million for the six-month financial period ended 30 June 2025 as compared to the previous corresponding six-month financial period ended 30 June 2024.

Other operating income of the Group for the six-month financial period ended 30 June 2025 was RM4,778.8 million, a decrease of RM333.2 million or 6.5% from RM5,112.0 million in the previous corresponding six-month financial period ended 30 June 2024. The decrease was mainly due to unrealised mark-to-market loss on revaluation of financial liabilities at FVTPL of RM122.6 million for the six-month financial period ended 30 June 2025 as compared to unrealised gain of RM1,452.6 million for the previous corresponding six-month financial period ended 30 June 2024, and unrealised mark-to-market loss on revaluation of financial investments at FVTPL of RM340.5 million for the six-month financial period ended 30 June 2025 as compared to unrealised gain of RM1,052.9 million for the previous corresponding six-month financial period ended 30 June 2024. The decreases were, however, mitigated by unrealised mark-to-market gain on revaluation of derivatives of RM248.1 million for the six-month financial period ended 30 June 2025 as compared to unrealised loss of RM1,362.9 million for the previous corresponding six-month financial period ended 30 June 2024, higher realised gain on derivatives of RM459.3 million, and higher gain on disposal of financial investments at FVOCI of RM403.3 million.

The Group's overhead expenses for the six-month financial period ended 30 June 2025 recorded an increase of RM277.0 million or 3.8% to RM7,528.0 million as compared to the previous corresponding six-month financial period ended 30 June 2024. The increase in overhead expenses was mainly due to higher personnel expenses of RM238.6 million, higher marketing expenses of RM40.9 million, and higher establishment costs of RM17.8 million. The increases were, however, mitigated by lower administration and general expenses of RM20.3 million.

The Group's net allowances for impairment losses on loans, advances, financing and other debts decreased by RM41.5 million or 4.9% to RM807.6 million as compared to the previous corresponding six-month financial period ended 30 June 2024.

The Group's net allowances for impairment losses on financial investments decreased by RM13.7 million to RM65.2 million as compared to the previous corresponding six-month financial period ended 30 June 2024.

Group CFS's profit before taxation and zakat decreased by RM335.4 million or 12.4% to RM2,360.7 million for the six-month financial period ended 30 June 2025 from RM2,696.1 million for the previous corresponding six-month financial period ended 30 June 2024. The decrease was mainly due to higher overhead expenses of RM186.9 million, higher net allowances for impairment losses on loans, advances, financing and other debts of RM150.6 million, lower net interest income and income from IBS operations of RM54.3 million and lower share of profits in associates and joint ventures of RM5.3 million. The decreases were, however, offset by higher other operating income of RM61.6 million.

Group Global Banking

a) Group Corporate & Commercial Banking and Global Markets

Group Corporate & Commercial Banking and Global Markets's profit before taxation and zakat increased by RM720.1 million or 22.6% to RM3,904.7 million for the six-month financial period ended 30 June 2025 from RM3,184.6 million for the previous corresponding six-month financial period ended 30 June 2024. The increase was mainly due to higher other operating income of RM328.1 million, higher net interest income and income from IBS operations of RM275.9 million, net writeback for impairment losses on loans, advances, financing and other debts of RM28.5 million for the six-month financial period ended 30 June 2025 as compared to net allowances of RM148.9 million for the previous corresponding six-month financial period ended 30 June 2024, and higher share of profits in associates and joint ventures of RM2.8 million. The increases were, however, offset by higher overhead expenses of RM35.5 million and net allowance of impairment losses on financial investments and other financial assets of RM28.4 million.

b) Group Investment Banking

Group Investment Banking's profit before taxation and zakat decreased by RM19.8 million to RM180.3 million for the six-month financial period ended 30 June 2025 from RM200.1 million for the previous corresponding six-month financial period ended 30 June 2024. The decrease was mainly due to higher overhead expenses of RM61.5 million and lower net interest income and income from IBS operations of RM4.1 million. The decreases were, however, offset by higher other operating income of RM25.2 million, lower net allowances for impairment losses on loans, advances, financing and other debts of RM16.2 million, lower net allowances for impairment losses on financial investments and other financial assets of RM2.9 million and higher share of profits in associates and joint ventures of RM1.5 million.

B2. Variation of Current Quarter Results Against Preceding Quarter (cont'd.)

The Group's net allowances for impairment losses on loans, advances, financing and other debts increased by RM39.2 million or 10.2% to RM423.4 million as compared to the preceding quarter ended 31 March 2025.

The Group's net allowances for impairment losses on financial investments increased by RM21.1 million to RM43.2 million as compared to the preceding quarter ended 31 March 2025.

B3. Prospects

Global GDP growth is expected to moderate to 2.7% in 2025 (2024: 3.3%), reflecting softer momentum in major economies, mainly the US (2025: 1.5%; 2024: 2.8%) and China (2025: 4.8%; 2024: 5.0%), arising from reciprocal tariffs imposed by the US effective August. ASEAN-6 GDP growth is also expected to moderate but remain relatively resilient at 4.5% in 2025 (2024: 4.9%), supported by accommodative monetary policies, offset by possible weakening in external demand due to ongoing global trade uncertainties.

Malaysia's GDP is forecast to grow 4.2% (2024: 5.1%) largely driven by domestic demand on resilient consumer spending facilitated by Budget 2025 measures and domestic investments. Despite external challenges, investment activity is expected to remain supported by key strategic initiatives, including the National Energy Transition Roadmap, the New Industrial Master Plan and the Johor-Singapore Special Economic Zone. Bank Negara Malaysia recently reduced the Overnight Policy Rate by 25 bps to 2.75% in July and inflation is expected to remain manageable at 2.0% this year (2024: 1.8%).

Singapore's GDP is now forecast to grow 3.2% in 2025 from an earlier expectation of 2.4% (2024: 4.4%) on stronger second quarter GDP growth following frontloading of manufacturing and regional trade activities during the 90-day tariff pause and de-escalation in the US-China tariff war. A construction boom and faster than expected decrease in interest rates have also cushioned tariff uncertainties. The 3-month Singapore Overnight Rate Average (SORA) rates have fallen roughly 136bps on capital inflows since the start of the year, supporting property market and financial activities, and is expected to end the year at 1.5%. The government can be expected to roll out more fiscal measures in the third quarter to support jobseekers and firms impacted by the higher US tariffs.

Indonesia's GDP growth is expected to moderate to 4.9% in 2025 (2024: 5.1%), as consumption slows and exports of manufactured goods and commodities remain under pressure due to global trade disruptions. Elevated reciprocal tariffs could weigh on labour-intensive manufacturing sectors with high US exposure, possibly impacting employment and household spending. Headline inflation is projected to ease to 1.3% in 2025 (2024: 2.3%), while Bank Indonesia has cut interest rates four times this year to 5.00% currently to support domestic economic activity.

Supported by continued economic growth in its home markets, Maybank Group will accelerate identified initiatives under its 14 strategic programmes in its final year of the M25+ plan, aimed at intensifying customer centricity and accelerating digital and technology modernisation to solidify its regional presence.

B3. Prospects (cont'd.)

The Group will continue to double down on penetration of its extensive customer base through focus on segments, cross-selling endeavours and leveraging ecosystem partnerships regionally. The Group will also focus on its super growth areas of wealth management, mid-market cap, non-retail and bancassurance segments whilst tapping on global market flows business. Maybank will seek to maintain sound liquidity, robust asset quality, and strong capital levels to support disciplined asset growth. The volatility and uncertainty surrounding potential trade disruptions however may have an impact on the growth and performance of the Group, as a result of slower economic growth, a 'wait-and-see' stance in investments and capital raising activities, and from financial markets' volatility.

Values-based banking remains a strategic differentiator for the Group, in alignment with its mission of Humanising Financial Services to ensure economic value creation while delivering sustainable shareholder returns.

Barring any unforeseen circumstances, the Group has set a Headline Key Performance Indicator (KPI) of return on equity of $\geq 11.3\%$ for FY2025.

B4. Profit Forecast or Profit Guarantee

Neither the Group nor the Bank has made any profit forecast or issued any profit guarantee for the financial half year ended 30 June 2025.
