**15. FAIR VALUE MEASUREMENTS**

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

**(a) Financial instruments carried at amortised cost**

The carrying amounts of financial assets and liabilities of the Group approximated their fair values as at 31 March 2026 except as set out below, measured using Level 3 valuation technique:

## 16. ANALYSIS OF PERFORMANCE (CONTINUED)

### (A) Performance of the current quarter against the preceding quarter (Q1'26 vs Q4'25)

In Q1'26, Maxis reported a total revenue of RM2,731 million, representing a decrease of 5% compared to RM2,876 million in the preceding quarter. The decline was in line with the usual trend in device revenue from the launch of a flagship smartphone recorded last quarter. Service revenue reduced slightly by 2.4% to RM2,242 million.

Consumer business revenue decreased by 1.7% to RM1,823 million. Despite growth in postpaid subscriptions by 1.4% to 4.2 million customers, postpaid revenue declined by 1.3% impacted by lower roaming revenue following the year-end travel season. Prepaid revenue was 2.4% lower in Q1'26 due to lesser days as compared to previous quarter.

Enterprise business revenue saw a 5.2% decline to RM419 million, primarily due to higher non-recurring revenue in Q4'25 for project completions.

Despite the decrease in revenues, EBITDA for the current quarter increased by RM21 million (1.9%) to RM1,099 million compared to RM1,078 million in Q4 2025. The improvement in EBITDA was contributed by lower device costs, in line with device revenue trends.

Following the increase in EBITDA, profit before tax increased by 15% to RM 559 million, while recorded a profit after tax of RM 417 million.

Capital expenditure was RM142 million, with investments focusing on essential upgrades for network performance enhancement. Operating free cash flow ("OFCF") for Q1'26 increased to RM983 million from RM659 million in Q4'25 attributed to strong working capital management and lower regulatory payment.

### (B) Performance of the current quarter against the preceding year corresponding quarter (Q1'26 vs Q1'25)

Q1'26 total revenue grew 4.7%, recording RM2,731 million compared to RM2,608 million in Q1'25. This growth was primarily driven by an increase in service revenue, which rose by RM71 million (3.3%) to RM2,242 million.

Within service revenue, the Consumer business segment saw a 2.8% growth at RM1,823 million. Consumer mobile business was driven by a segmented acquisition approach, which led to an increase of 5.7% in the postpaid subscriber base, currently standing at 4.2 million subscribers.

The Enterprise business segment recorded a 5.3% revenue growth to RM419 million mainly due to higher wholesale services and higher project deliveries for fixed and solutions.

**FY2026 financial outlook**

Amidst a highly competitive telecommunications landscape, Maxis drives long-term sustainable growth by streamlining operational efficiencies while simultaneously elevating customer experiences through service innovation and highly reliable network performance.

Our priorities for 2026 remain unchanged. The five key areas are to:

- (b) expand our enterprise business by extending core capabilities beyond connectivity,
- (c) grow our network infrastructure and wholesale business to meet future demands,
- (d) leverage digitalisation and artificial intelligence ("AI") to enhance customer experience and drive efficiency; and
- (e) develop a high-performance culture that focuses on accountability, execution and results.

Our guidance for the financial year ending 31 December 2026 is as follows:

- a low single digit increase in service revenue;
- a low single digit growth in EBITDA; and
- capex intensity between 10% to 12%.
